

Why join us?

Membership is for free and charitable clinics in Pennsylvania. If you are a 501(c)3 free or charitable clinic providing primary care services, prescription assistance, linkages to specialty care and chronic disease management, and medical screenings to uninsured residents of Pennsylvania, we want you to join the Free Clinic Association of Pennsylvania!

Primary care includes family medicine, general internal medicine, geriatrics, pediatrics, psychiatry, obstetrics and gynecology, general dentistry, and behavioral health.

The Free Clinic Association of Pennsylvania (FCAP) provides advocacy, assistance, education, visibility, and networking opportunities to member clinics. FCAP can bring local free and charitable clinics together to create a voice more powerful than could be realized individually.

Member Benefits

Strength in Numbers – - FCAP is here to advocate for you. The strength of an association is its membership, and the more members we have, the stronger we are when conveying your needs to the media, legislators, policymakers, funders, and the public. FCAP's legitimacy and voice are strengthened by representing the majority of free clinics in Pennsylvania. Please consider joining to enhance the impact of our presence in Harrisburg and across the state as we work to benefit you!

Education and Information - FCAP is here to provide resources to you. FCAP shares information with members about opportunities for grant funding; new or changing policies or regulations that may impact your services; patient care and well-being; resources to supplement medical care and address "social determinants of health;" non-profit management, fundraising and volunteer recruitment; and other topics requested by members.

Support - FCAP is here to connect you – to other free clinics in Pennsylvania, and other professionals working in similar roles in those clinics. Members have expressed interest in building regional and/or functional affinity groups among free clinics in PA to network and share ideas and resources; collaborate on policies; lend collegial support; and build a sense of community.
